Topcut Rhodes Grass

Topcut Rhodes Grass

Whilst not as fine stemmed as Finecut, the variety is substantially finer and more productive than older varieties of Rhodes grass.

Topcut is more erect than Finecut, is early flowering, leafy and uniform.

- * Improved dry matter yields and hay production
- * Creeping habit reduces erosion
- * Tolerant of salty conditions
- * Erect, uniform growth and maturity.

- * Bisset Creeping Bluegrass
- * Medway
- * Finecut Rhodes Grass
- * Topcut Rhodes Grass
- * Aztec Siratro
- * Dawson Creeping Lawngrass
- * Riel Forage Oats
